PREMESSA

Il presente catalogo realizzato con solo figure è costituito da:

- 1) Un indice grafico generale (tavola A) suddiviso in gruppi di argomenti individuati secondo le lettere dell'alfabeto.
- 2) Una serie di indici parziali per ciascun gruppo di tavole individuate dalle lettere dell'alfabeto dell'indice generale.
- 3) Le tavole del catalogo secondo gli indici parziali.
Simboli codificati forniscono informazioni complementari nelle ordinazioni dei particolari (progressivi, introduzione, validità, ecc.)
Il significato dei simboli e delle espressioni codificate è riportato alla pag. A12

Alla fine del catalogo è inserito l'indice numerico dei categorici con le relative quantità e numero tavola.

All'inizio del suddetto indice sono riportati tutti i movimenti effettuati rispetto al precedente aggiornamento.

Inoltre è riportato (vedi tavola T17) un indice di comparazione tra codice tavola e sottogruppo di appartenenza.

FOREWORD

This catalog, featuring tables of exploded views only, consists of:

- 1) A general table of contents (table A) subdivided in groups of individual items (according to the letters of the alphabet).
- 2) A set of partial indexes one for each group identified by a letter of the alphabet.
- 3) Catalog tables in the same sequence as given in the partial indexes.
Code symbols provide complementary information (serial numbers of cars a modification starts from, applicability etc.), to aid in placing orders.
The meaning of symbols and codes is explained on page A13

At the end of the catalog a numerical index, with quantities and numbers of the tables, is provided.

All part number changes e/o supersessions, related to the last modifications, are used at the beginning of the aforesaid index.

Furthermore, a cross-reference between table code numbers and groups the components pertain to is given.

USO DEL CATALOGO

Ricerca del numero di ordinazione di un pezzo conoscendone la funzione:

- 1) Cercare nell'indice grafico generale (tavola A) la lettera di appartenenza del gruppo interessato.
- 2) Individuata la lettera cercare nel corrispondente indice parziale la tavola interessata.
- 3) Determinata la tavola individuare il numero del particolare tenendo conto degli eventuali simboli o codificazioni che specificano norme e validità.

Ricerca di un pezzo tramite un numero di ordinazione:

- 1) Cercare nell'indice numerico (da tavola S2) il numero del pezzo e rilevare il codice della tavola.
- 2) Cercare nell'indice di comparazione tra codice tavola e lettera di appartenenza del sottogruppo (tavola T17) la lettera corrispondente alla tavola interessata.
- 3) Consultare la tavola e rilevare il pezzo di cui si conosce il numero di ordinazione.

HOW TO USE THE CATALOG

Finding out the part number of a component when its function is known:

- 1) Find the letter of the group the component pertains to in the general table of contents (table A).
- 2) With the letter trace the affected table in the partial index.
- 3) Single out the part number of the component paying attention to read also possible symbols and codes.

Finding out a component part when its part number is known:

- 1) Trace the part No. in the numerical index (from table S2) and read the table code number.
- 2) In the table code number-to-group letters cross-reference list (table T17) find the letter relating to the affected table.
- 3) Single out the component through its part number.
